## Stiletto Shoe Class

- Date: Saturday 19 September 2015  
Or Sunday 20 September 2015
- Time: 10am—5pm (7 hours—includes lunch)
- Level: Intermediate – previous experience is required
- Cost: £165 (deposit of £80 to be paid on booking)

In Kelly's very popular stiletto shoe class she will teach you how to use a silicone mould to make a heel, including her own unique method for creating a more realistic shape than is typically achieved with the mould.

Everyone will choose their own shoe colour and learn how to cover a pre-made heel in that colour (the heels made in class need several days to dry, so students take those home, and pre-made heels are supplied for each student to use on the day).

Next she will teach the techniques for making the sole and a platform for the shoe, adding an insole and the method for painting a personalised logo in the shoe.

Students will then create the top part of the shoe, including a closed toe and heel (the trickiest style to make), with stitching detail and lining which adds so much realism to the finished shoe.

Kelly will finally show students how to add straps and bows to the shoe, and the supports needed for different styles.

Each student will leave the class with a completed shoe, another heel to make the matching pair at home, plus a set of templates and a former.
